GARIKAI
DAVID
NHARARA

PROFILE

I am a vibrant young man constantly looking to grow and enhance my skills through any platform granted to me. I often think of myself as a student of life, as Vernon Howard said: "Always walk through life as if you have something new to learn, and you will." My skillset is very miscellaneous as I have picked up many skills along my diverse upbringing. I approach everything in my life with a keen desire to find and present solutions, a trait I am sure not only benefits me but everyone around me. My obsession with presenting faultless work sometimes hinders my productivity but overall is a trait that allows me to not need much micro-management.

"I'm a great believer in luck, and I find the harder I work the more I have of it."
— Thomas Jefferson
